Priocept helps businesses to create digital products and services. We design, build and run web technology platforms for some of Europe's leading companies including GlaxoSmithKline, Avis Budget Group and Virgin Mobile.

Established in 2004, we specialise in providing software development and IT services for internet technology projects, often working alongside other consultancy firms, agencies and internal teams.

Our Services

Technical Advisory

Interim CTO, technical architect and project management services.

Technical audit, feasibility studies, and software delivery planning.

Platform Selection

Consultancy services to assist in evaluating alternative software products and ensure investment in the right technologies.

Content Management

Technical design and implementation of complex, multi-site, multi-lingual content management solutions using a broad range of CMS products.

E-Commerce

Technical design and implementation using both off-the-shelf and bespoke e-commerce technologies.

Web Operations

Web application support, hosting supplier management, continuous integration and continuous delivery implementation.

Bespoke Development

Broad and deep software engineering capabilities applicable to any bespoke software development challenge.

Partnerships

Priocept partners with many leading technology vendors. We have been a Microsoft Certified Partner since 2004 and have long-established partnerships with CMS and e-commerce vendors including Magnolia, Sitecore, Episerver, Sitefinity and Demandware, and hosting companies Rackspace and Attenda. We also have extensive experience with Amazon Web Services (AWS), Google Cloud Platform and Microsoft Azure hosting technologies.

Our Clients

We are proud of our long-term relationships with market-leading organizations and our reputation for delivery, quality and technical expertise.

Our Work

Vitec Videocom – Multi-site E-Commerce Platform

Priocept develops and operates a multi-site e-commerce platform for Vitec, the global leader in high-end camera accessories, using Magnolia CMS combined with bespoke ERP integration.

Uniform Wares – Demandware E-Commerce Implementation

Priocept developed a sophisticated online store for premium UK watch brand Uniform Wares, using the Demandware enterprise e-commerce platform.

Avis Budget EMEA – Pan-European E-Commerce Platform

Priocept works with Avis on various software engineering projects including the ongoing development of their pan-European car rental booking platform.

Euroffice – E-Commerce Platform

Priocept worked alongside the UK's leading online stationery retailer to entirely redevelop their e-commerce technologies.

TUI Travel – Content Platform

Priocept developed a content platform for TUI using JCR technology, to provide a multi-lingual content delivery service in support of dozens of travel websites.

Fundsmith – Investor Portal

Priocept develops and operates Fundsmith's transactional investor platform and associated mobile apps.

London Stock Exchange – Regulatory News Service

Priocept developed the business critical RNS service for the London Stock Exchange, to handle over 70% of UK regulatory announcements with an uptime requirement of 99.999%.

Virgin Mobile – E-Commerce Platform using Sitecore

Priocept built Virgin Mobile's e-commerce store in Qatar. The Sitecore powered platform sells phones and talk plans, and delivers a rich experience in both English and Arabic.

GlaxoSmithKline – Behavioural Support Platform for Web and Mobile

Priocept is responsible for GSK's Episerver based web platform and associated mobile app development.

Association of British Insurers – Sitecore Web Development

Working closely with both the ABI and its member organisations, Priocept redeveloped their website on a Sitecore CMS platform.

WWFlife – Content Platform and Curation Tool

Priocept developed a bespoke system for WWF, using Google Cloud Platform and Google App Engine, which ingests and distributes social media content from conservation projects around the globe.

Testimonials

" Priocept's work on web systems for TUI has been excellent. The quality of Priocept's technical concepts as well as implementation is first-rate. They have always been helpful and supportive, and always went the extra mile to make the project a success. "

Dr. Karl Geiger
Head of Web Development, TUI Travel

" Priocept's deliverables have only ever been of the highest standards. I have used them on multi-supplier projects several times and they always impress me in the way they work effectively and collaboratively with other suppliers. "

Jo Scott
Senior Web Manager, Lloyd's of London

" Without exception, Priocept has provided sound advice and has always looked out for the interests of Panasonic. "

Matt Aslin
Product Manager, Panasonic Corporation

" Priocept was selected because it is specialised enough to understand our specific needs but broad enough to handle the challenge. "

Simon Wilkinson
Head of IR Solutions, London Stock Exchange
